

Part Numbering Variations Matrix

Example:

EM AZR-4-500-G – Pad Mounted Transformer Secondary Connector (Z bar-shaped)—set-screw type, 5/8" stud accommodated, right-hand mount, maximum conductor size 500 MCM, with electrical joint compound.

Sample ordering information

- EM AZL4-350** – Secondary connector, Z bar-shaped, set-screw type, left-hand mount, 4-position, accommodates 5/8" stud, maximum conductor 350 MCM.
- EM BZR6-500** – Secondary connector, Z bar-shaped, set-screw type, right-hand mount, 6-position, accommodates 3/4" stud, maximum conductor 500 MCM.
- EM CZL6-750** – Secondary connector, Z bar-shaped, set-screw type, left-hand mount, 6-position, accommodates 1" stud, maximum conductor 750 MCM.

Add suffix **-A** for anodized set screws.

Add suffix **-G** for electrical joint compound.

Add suffix **-S** for street light tap.

Add suffix **-FT** for full threads instead of quick disconnect; **-J** for full threads and jam nut.
